Fire Door Training

Fire doors are found in most of our commercial and multi-storey residential buildings and come in different types, sizes and finishes, incorporating a plethora of hardware and furniture options.

Understanding the fundamentals for fire doors (fire resistant doorsets), including the relevant Legislation, the applicable parts of the BCA and the interaction with the relevant Australian Standards is paramount to those working with fire doors and fire door hardware.

The training program will provide attendees with a thorough understanding of fire resistant doorsets and the key fire door standard, AS 1905 Part 1, which underpins the fire door industry in no uncertain terms.

The training will also include maintenance and certification requirements for doorsets.

Course Objectives

- Define “what is” Passive Fire & Smoke Containment
- Demonstrate an understanding of the Legislation and Building Code and how it relates to fire doors
- Explain the relevant sections of AS 1905 Part 1
- Explain the principles of fire testing & approvals
- Demonstrate an understanding of fire ratings and FRL’s and how they apply to fire resistant doorsets
- Demonstrate an understanding and explain the concept of fire resistant doorsets and all of the relevant components and their interaction
- Identify the relevant suppliers of fire doors and fire door hardware
- Understand the maintenance requirements for fire-resistant doorsets

Subjects Covered

- ❑ Relevant Legislation
- ❑ Building Code of Australia
- ❑ AS/NZS 1905 Part 1
- ❑ Fire testing to AS 1530 Part 4
- ❑ Fire ratings and FRL’s
- ❑ Door types and constructions
- ❑ Design requirements
- ❑ Materials, door components and door hardware
- ❑ Installation
- ❑ Tagging and relevant documentation
- ❑ Commissioning
- ❑ Maintenance
- ❑ Certification

Who Should Attend?

This seminar has been designed for:

- ❑ **Installers**
- ❑ **Maintenance Personnel**
- ❑ **Builders**
- ❑ **Engineer Designers**
- ❑ **Architects**
- ❑ **Certifiers**
- ❑ **Supervisors**
- ❑ **Project Managers**
- ❑ **Facility Operators/Managers**

Seminar Materials

All delegates will receive:

- ❑ A training manual with a full set of course notes
- ❑ A copy of TG03 – Technical Guide for fire doors and fire door hardware
- ❑ A copy of AS 1905 Part 1 – fire door standard
- ❑ Relevant articles on fire doors
- ❑ Certificate of Attendance for proof of successful completion

Delegate Pre-requisites

Anyone with an interest in the installation, certification and maintenance in fire resistant doorsets should attend this course

Continuing Education

Participants will be eligible for CPD credits

About the trainer

John Rakic

With 18 years experience in the passive fire protection industry covering design, fire testing, installation and maintenance, John has an invaluable mix of skills and expertise to offer. John is currently Chairman of the Australian Standard's Committee for fire doors. He is well known and respected in the fire protection industry both locally and internationally.

About the PFPA

The Passive Fire Protection Alliance (PFPA) was established to promote the design, installation and maintenance of the systems and components that individually or combined provide passive fire protection in the built environment. A key role of PFPA is to develop and disseminate material that will educate all stakeholders in best practice passive fire protection in the construction and maintenance of buildings in accordance with Australian regulations and standards. PFPA uses its comprehensive website www.pfpa.com.au to make available this information.

Accredifire was established to provide training to the industry in our area of operation.

For more information relating to the operation of Accredifire visit www.accredifire.com.au

Registration & Payment Form

IMPORTANT INFORMATION

VENUE

Rydges Hotel

Acacia 1 Room (Level 1)

24 McLaren Street

North Sydney NSW

Scope

The training seminar shall be as outlined and shall include: morning and afternoon teas, lunch, an Accredifire binder containing detailed seminar notes plus a copy of Australian Standard 1905 Part 1, and a Certificate of Attendance.

Schedule

The training seminar shall be conducted over one day duration. Start and finish times shall be 8:30am and 4:30pm respectively. A fully catered lunch and refreshment breaks are included in the costs. Participants are requested to arrive at 8:00am to allow time to enroll.

Participant Numbers

Each training seminar will be limited to 22 participants and positions will be allocated in order of receipt of registration and payment in full. PFPA reserves the right to cancel or reschedule the course if insufficient participants register and will provide a full refund of registration fee if the course is cancelled.

Participant Cancellation Policy

Registration may be cancelled up to ten working days prior to commencement of the course. Full amount will be refunded minus an administration fee (\$45.00 including GST). If no cancellation notice is received, or if cancellation is made in less than 10 days prior to commencement, no refund will be provided. A participant may be substituted at no extra charge.

Payment

Payment must be received prior to the commencement of the event. A written confirmation and tax invoice shall be sent to the delegate upon receipt of a completed registration form. Prices listed are in Australian Dollars (AUD).
